Additional Notes :

1. All dollar amounts above are in [US Dollars].
2. **Notional Net Profit** means the notional value that can be attributed to the representative value of the net positions of your Trades for each Trading Period.
3. The **Profit Consistency Rule** applies to all trading activities during the Assessment Period and/or Funded Trading Period. For the purposes of this Schedule. To satisfy the Consistency Rule: no single trade can account for 25% or more of your total Required Return or total Target Return.
4. The **Lot Size Consistency Rule** applies to all trading activities during the Assessment Period and/or Trading Period. For the purposes of this Schedule. To satisfy the Lot Size Consistency Rule your average trade size is used to calculate your trading range. The range is determined by adding 100% to your average trade size to determine the maximum value and subtracting 75% to determine the minimum value. Note trades are aggregated when placed within a 30 second window into one position for both profit and volume consistency.
5. The Assessment Period and Assessment Criteria may comprise either 1 or 2 parts. If it comprises 1 part, then you must satisfy the stated Assessment Criteria within the stated Assessment Period. If it comprises 2 parts, then you must satisfy the requirements of Phase 1 (Evaluation) to be eligible to proceed to Phase 2 (Verification) and you must satisfy the requirements of Phase 2 (Verification) to satisfy the Assessment Criteria for your selected Assessment Program.
